

## Assignment 7: Check whether the number is palindrome or not.

```
GNU nano 6.2 task7.sh
read -p "Enter the number: " a
rev_num=$(echo "$a" | rev)
if [ "$a" -eq "$rev_num" ];then
    echo "The number $a is a palindrome: $rev_num"
else
    echo "The number $a is not a palindrome"
fi
```

```
rps@rps-virtual-machine: ~/program$ ./task7.sh
Enter the number: 242
The number 242 is a palindrome: 242
rps@rps-virtual-machine: ~/program$ ./task7.sh
Enter the number: 321
The number 321 is not a palindrome
rps@rps-virtual-machine: ~/program$
```
