

Assignment 5: Find the sum of the array.

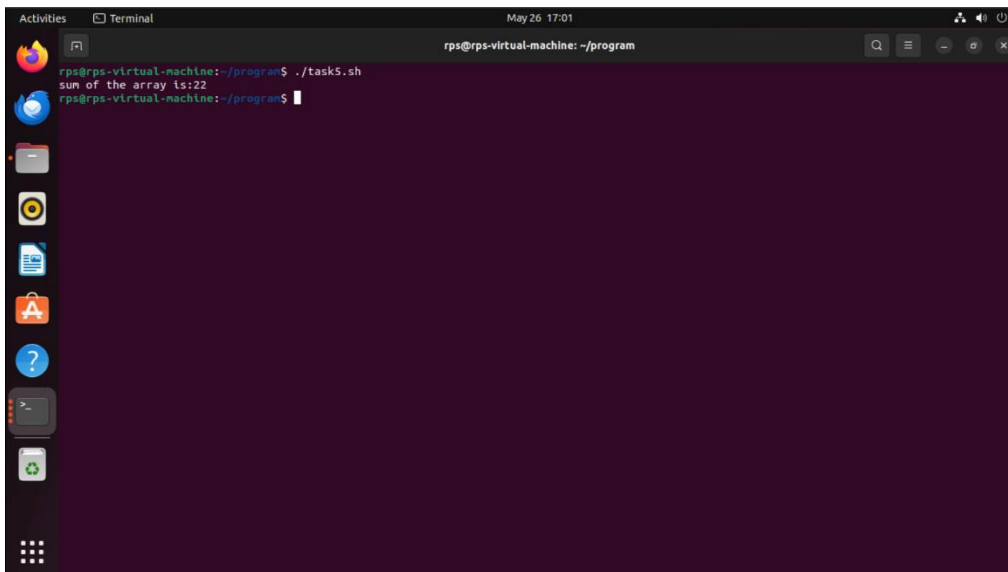

```
GNU nano 6.2 task5.sh
a=(2 1 8 5 6)

sum=0

for b in "${a[@]}"
do
    sum=$((sum + b))
done

echo "sum of the array is:$sum"
```

```
rps@rps-virtual-machine: ~/program
rps@rps-virtual-machine:~/program$ ./task5.sh
sum of the array is:22
rps@rps-virtual-machine:~/program$
```
